Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

Division representative Ingrid Campbell met with Dave Shaver of Andalex Resources to inspect the weed removal work at gas well pads # 1 and # 5. A Notice of Violation was issued by the Division for failing to control noxious weeds at the reclaimed gas well pads. Mr. Shaver discussed mechanical and chemical weed control of the site as well as plans to reseed.

13. Revegetation

The Division approved a seedmix modification for the sites in October 2010. Mr. Shaver plans on seeding the site the week of November 8, 2010. Seeding must occur no sooner than Nov. 4th, 2010 due to the wait times after chemical application. The permittee had successfully removed all noxious or other weeds by hand clipping and spraying herbicide. Desireable plants including grasses and sagebrush have not been affected by the broadleaf herbicide.
